

WHAT TO EXPECT FROM YOUR CHROMOLOGY COLOR CONSULTATION

1. Chromology will meet with you in your home. You will discuss lifestyle, existing décor and preferences. From here you will decide on some possible color options.
2. Chromology will order you 8.5" x 11" color samples within two days of your consult.
3. Your samples are shipped to both you and Chromology so that both parties have colors to reference.
4. If you do not receive your samples within five business days, please call Mary w/ Chromology @ (612) 203-5522.
5. When you receive samples, tape them up on your walls. We often send you multiple copies of colors so you can see how the light reacts on different walls.
6. Live with the samples long enough (we suggest a couple of days) so you can see them in the day and night time.
7. We suggest you only ask the opinions of a couple of people whom you trust. Everyone will have an opinion; yours is the most important. After all, it is your home.
8. Take down the color choices that you know you aren't using. The more you simplify, the easier it is for you to see your true color choices.
9. If you still can't decide, please contact Chromology to either trouble shoot over the phone or you can have us revisit your home.
10. We would love to know what colors you have chosen, so please contact us to inform us of your decision.
11. Remember to fax your selections to Tenet @ (952) 914-9552.
